

Woolfords Wind Farm Tip Height Increase

wind2

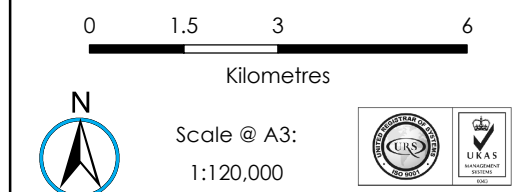

Figure 5-15
Cumulative ZTV – Operational and
Consented sites most likely to
interact with Woolfords

Key

- Proposed turbine
 - Landscape Viewpoint
- 5km turbine buffers to 15km
- Zone of Theoretical Visibility
- Other development visible Only
 - Woolford visible only
 - Woolfords & 1-2 developments visible
 - Woolfords & 3-4 developments visible
 - Woolfords & 5-6 developments visible
 - Woolfords & 7-8 developments visible
 - Woolfords & 9-13 developments visible

Generated using Ordnance Survey's Terrain50 dataset
which does not take into account the screening
effects of buildings or vegetation.

ZTV calculated using ArcGIS 10.6 Viewshed tool with observer eye height 2m above ground and corrections for earth curvature and atmospheric refraction applied.
